Business Terms: Prices quoted in this catalog are net, 30 days. All goods are offered, subject to being unsold on receipt of order, and we reserve the right to change prices, if current conditions require it.

All goods travel at purchaser's risk after they are in the hands of any common carrier.

Orders from unknown parties must be accompanied by cash or satisfactory references.

Claims must be made on receipt of goods, otherwise they will not be considered.

Packing will be charged extra at cost.

NON-WARRANTY

While we take all possible care to send out only such goods that under proper conditions produce satisfactory results, we still give no warranty as to description, quality or productiveness of any seeds, bulbs or plants we send out and will not be in any way responsible for the crop. All orders for articles named in this catalog will be executed on these conditions only.

For years it has been our privilege to supply many of the leading estates with their plant requirements and we ask your consideration when in the market for plants, either for greenhouse or outdoor use.

We have *Practical Plantsman* in our organization, and it will always be considered a privilege to quote on your needs. Rare and unusual subjects are a specialty with us.

Your inquiries are respectfully solicited.

January 1, 1934.

FOR the sixteenth consecutive year we present our catalog of flower and vegetable seeds, bulbs, plants and gardening requisites, and in doing so extend renewed greetings to our many valued friends in the horticultural fraternity. We greet also those whom our price list is reaching for the first time, with the sincere hope that it will serve as an introduction to a long, close, and mutually beneficial relationship.

The coming of the New Deal with its stricter regulation of business activities has brought about changes in the policies and standards of many establishments in all fields. But when a firm, for nearly a score of years, has consistently adhered to the highest ideals and standards of both merchandise and service, there is little need or justification for mere superficial variation in the appearance and substance of its message. Consequently we offer again, as we have in the past, a plain, straightforward, descriptive price list designed to give specific, accurate, helpful information about the commodities we handle.

It is our belief that our patrons know what they want and are interested primarily in results rather than promises, and that, accordingly, they want definite facts and figures simply and effectively presented rather than glowing, imaginative word pictures and colorful but not necessarily convincing illustrations. For this reason our catalog is like the service we strive to render—direct, competent, intelligent; without fuss and frills, but 100 per cent up to specifications and requirements. Whether dealing with recognized, time-tested, standard varieties or with the novelty sorts that we confidently recommend as new, better and worthy of trial for particular purposes, our descriptions are accurate and reliable and our prices reasonable and commensurate with thoroughly dependable quality and complete customer satisfaction. We pledge ourselves to maintain in all our dealings the type and degree of service that have made the name Muller-Sealey synonymous with *Maximum Satisfaction* for more than a decade.

Whether an order is large or small, whether for regular, easily obtainable material or for some unusual, keenly desired rarity, it receives the same interest, prompt attention and scrupulous care at the hands of a skilled, experienced, thoroughly capable personnel proud of its record and determined to maintain it.

Our organization will welcome every opportunity to assist its patrons in solving their gardening problems, in locating odd and hard to find plant materials, in promoting the success of their horticultural efforts. Visitors will be cordially received at our conveniently located, mid-New York City offices and our commodious Jersey City warehouse; and those who must or who prefer to depend on correspondence may be assured of no less prompt, interested, personal attention.

Looking forward to a new era of normal, well distributed prosperity built upon sound, enduring foundations, we see ahead rich and unprecedented opportunities for horticultural progress, growth and achievement. It is our proud ambition and endeavor to assist our patrons in contributing to that progress and achievement and in realizing therefrom a generous measure of reward and real enjoyment.

FLOWER SEEDS

Novelties for 1934

ASTER SUPER GIANT "Los Angeles"

The color of this new Giant Aster is a pure shell pink. The long-stemmed flowers are full petaled, deep, and unusually large, and are artistically graceful in the feathery effect of the interlacing petals. **Pkt. 50c.**

CALENDULA "Apricot Queen"

A flat petaled variety of a bright apricot shade deepening slightly towards the center. **Pkt. 50c.**

CANTERBURY-BELLS "New Dwarf Bedding"

This new type grows about 20 inches in height, forming bushes over 3 feet in circumference. It is very floriferous, the plants often bearing 100 to 150 flowers. The colors that have so far appeared are various shades of blue, mauve, and white. **Choice Mixed. Pkt. 50c.**

NEW HYBRID DIANTHUS "Loveliness"

Loveliness is a gorgeous flower of an exquisite mauve tint, having large, lacerated petals some 2 inches in diameter. It has the most gorgeous bouquet and is the most alluring perfumed flower we know. Millions will grow it for scent alone. It is a hybrid from *Dianthus wimmeri*, but much freer flowering, with a more erect stem. Sow seed at any season—Winter with heat, Spring and Summer out-of-doors. Blooms about seven months from date of sowing. **Pkt. (20 seeds) \$1.00.**

LINARIA MAROCCANA GRANDIFLORA "Diadem"

This novelty with its flowers of bright violet with pure white eye has much larger blooms than the other *Linarias*, and it lasts in bloom much longer. It grows about 10 inches high and forms a perfect bush with many spikes of flowers to each plant. **Pkt. 50c.**

MYOSOTIS ALPESTRIS "Blue Ball"

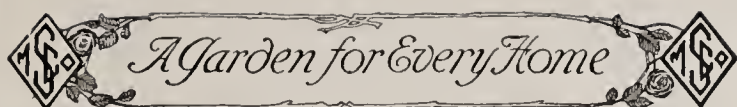

This new Forget-me-not is remarkably compact in habit, of almost globular shape and of more regular growth than any other variety hitherto introduced. The flowers are of a deeper tint than the ordinary indigo blue. **Pkt. 50c.**

PAPAVER NUDICAULE "Gartref" ICELAND POPPIES

The "Gartref" strain of Iceland Poppies has been reselected from the range of art shades, and, as a distinctive feature, most of the blooms have dark edges to the petals, both in dainty tonings and in sharp contrast to the base colorings. The large blooms measure 4½ inches across, and some even as much as 5½ inches. The range is extensive, for, besides the number of base colorings, the combination of edgings and centers adds to the variety. The pink tones are mainly in the shell pink to carmine range, the yellows in the cream to gold tonings, and the amber to apricot colorings are free from brown shades. **Pkt. 50c.**

POPPY "Fairy"

This beautiful new Poppy may be described as a giant "Shirley" growing in bush form. The flowers measure 6 inches across, each having a Maltese cross of varying tint in the center and appear in all art shades of pink, rose, salmon, and scarlet. **Pkt. 50c.**

VERBENA VENOSA "Lilacina"

This new variety with delicate lavender blue flowers has now been added to the well known purple variety. The mass of flowers which hides all the foliage shows off the color to the best advantage. Height 1 foot. **Pkt. 50c.**

DOUBLE ANNUAL WALLFLOWER "Early Wonder Violet"

The long, strong central spike of this new variety is thickly covered with large, double violet blooms and if sown in March will flower from August until frost comes. **Pkt. 50c.**

Recent Novelties and Specialties

AGERATUM "Little Silver Star"

This new Ageratum is distinguished for its compact, close habit and is therefore specially recommended for edgings. The round, cushion-shaped plants which are only 4 to 5 inches high measure from 8 to 10 inches across and are so thickly covered with silver gray starlike flowers that the small, green leaves are practically hidden. **Pkt. 50c.**

ANCHUSA ITALICA "Feltham Pride"

The Anchusa has the disadvantage of a rather straggling habit of growth, but "Feltham Pride" is of a much less spreading habit than the "Dropmore" variety, and moreover bears larger flowers and of a brighter blue. **Pkt. 50c.**

CHOICE, LONG-SPURRED AQUILEGIAS

Crimson Star. Brilliant dark crimson.

Silver Queen. White to cream with spurs faintly tinged rosy sapphire.

Pink Beauty. Sepals and spurs soft pink with a corolla of creamy yellow.

Copper Queen. Coppery red petals and spurs with large, open, straw-colored corolla passing off to white.

Rose Queen. Pale pink sepals and spurs, white corolla with yellow stamens.

Each of the above, pkt. 50c.

For other varieties, see page 32.

ASTER SUBCAERULEUS "Wartburg Star"

A new giant flowering race of these popular Spring Asters. The bright lavender blue flowers with yellow centers measuring more than 4 inches across are borne on stalks 28 inches long. **Pkt. 50c.**

CALENDULA CHRYSANTHA

Remarkable for its great length of stem, and the most striking resemblance the flower bears to a Chrysanthemum. The drooping petals are long and wide, and the color is a clear buttercup yellow. **Pkt. 50c.**

ANNUAL CANTERBURY-BELLS

After many years of selection, we are able to offer a strain which will bloom within 6 months from time of sowing. This strain is obtainable in mixture only, but contains all the colors of this popular flower. **Pkt. 25c.**

PERENNIAL CHRYSANTHEMUM "Piper's Hybrids"

These retain the early flowering habit of the Early Singles, and the staying qualities of the Hardy Garden Type from which they are produced. Blooms, 2 to 4 inches across, are in varied forms in shades of bronze, terra cotta, crimson, pink, white and maroon. They are vigorous in character and absolutely hardy. Seed sown before the first week in April will bloom in September and continue until frost.

Choice Mixed. Pkt. 50c.

CINERARIA MULTIFLORA GRANDIFLORA MAXIMA

A hybrid between "Multiflora Nana" and "Grandiflora Maxima." It has inherited the multiflorous blooms of the "Multiflora Nana" and the height of the "Grandiflora Maxima." The single blooms measure 2-3 inches in diameter and the plant grows 12-16 inches high above the pot. We offer it in the following colors: **White, Salmon Rose, Fiery Crimson, Cornflower Blue, Light Rose, Choice Mixed.**

Each of the above colors, pkt. \$1.00

HEWITT'S SUPER DELPHINIUMS

Hewitt's Delphinium Seed is the finest obtainable, selected from the best types, carefully ripened and reselected before being sent out. The varieties we offer are the cream of modern Delphiniums.

Advancement. Pale blue guard petals with inner petals glistening pink. **Pkt. \$3.00.**

Anne Hathaway. Rich blue with white eye. **Pkt. \$2.00.**

Arden. Guard petals sky blue, inner petals rosy mauve. **Pkt. \$2.00.**

Duchess of York. Blue, suffused violet, semi-double, with black eye. **Pkt. \$2.00.**

Monarch of Wales. Deep blue and mauve. **Pkt. \$2.00.**

Pompadour. Brilliant blue, perfectly formed semi-double flowers; a grand variety. **Pkt. \$3.00.**

Tom Hewitt. Glorious rich blue with black eye. **Pkt. \$2.00.**

Warwick. Deep purplish blue, semi-double waved flowers. **Pkt. \$2.00.**

Will Shakespeare. Semi-double flowers of medium blue, shaded rosy mauve. **Pkt. \$2.00.**

For other varieties, see page 34.

DIANTHUS ROCK ALPINUS

After many years of patient work crossing selected types of "Allwoodi" on to various types of Rock Alpinus, we have been rewarded by a number of ultra beautiful seedlings. The large majority of seedlings will be of very dwarf habit from 3 to 6 inches. Plants are perpetually flowering from early Summer until frost, retaining their beautiful glaucous foliage throughout the year. **Pkt. 50c.**

GEUM "Prince of Orange"

The color of this new variety is a true rich orange shade, the plant is sturdy with long and strong stalks. It flowers early, being in full bloom in early Summer. **Pkt. 50c.**

"GLORY OF THE SUN"

Leucocoryne Ixioides Odorata

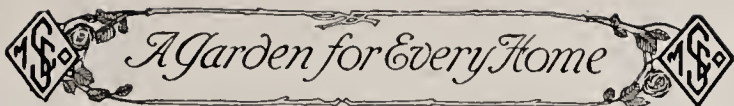

First introduced from Chili in 1927, it has proven to be one of the finest cut flowers for the cool greenhouse. It has heads of large, fragrant flowers, blue with white center, carried gracefully on wiry 18 inch stems. The culture is the same as for Freesias but as the bulbs show little tendency to throw off sets, *seed which germinates freely is the best means of propagation.* **Pkt. \$1.00.**

NEW DOUBLE HOLLYHOCK "Imperator"

Rising to a stately height, it bears flowers 5½ to 6½ inches across, consisting of wide outer petals, elegantly frilled and deeply fringed, and in the center of which appears a very double rosette about 2 inches across. The coloring includes cerise salmon with cream center, reflecting rose, delicate pink with rose center, flushed yellow, light yellow flushed rose with canary yellow center, but there are many other charming combinations of different tints. **Pkt. 50c.**

KALANCHOE GLOBULIFERA COCCINEA

This succulent pot plant is easy to grow and propagate. In shape the flower resembles a Bouvardia, while the color is a brilliant scarlet. **Pkt. \$1.00.**

LARKSPUR, Upright or Delphinium Type

Blue Bell. A fine, medium blue Larkspur, deeper than sky blue, yet much lighter than lilac. It is decidedly upright with long, basal branched flowering spikes.

Carmine King. Deep carmine rose.

Miss California. Rich deep pink on a salmon ground.

Blue Spire. Intense deep blue.

White Spire. Dazzling pure white.

Each of the above, pkt. 25c., $\frac{1}{4}$ oz. \$1.50

NEW DWARF LINARIA "Fairy Bouquet"

The plants are not more than 8 inches high, are very compact in habit, and bear large flowers in many colors, such as rose, yellow, pink, lavender, carmine, red, violet, white and salmon. Excellent either for bedding or for pots.

Choice Mixed Colors. Pkt. 50c.

GOLD MEDAL "REGAL" LUPINES

The finest strain of Perennial Lupines in existence.

Award of Merit, Royal Horticultural Society

Cleopatra. Apricot flame.

Buttercup. Buttercup yellow.

Delight. Massive crimson lake.

Golden Thoughts. Rosy fawn.

Joy. Pink and yellow, dwarf.

Joyce Blackburn. Yellow, tinted bronze.

Marjorie. Beautiful shade of bronze.

May Robinson. Apricot fawn.

Mrs. Metcalfe. Orange scarlet, a glorious variety.

Pink Pearl. A distinct lovely pink.

Queen of Hearts. Pink and white bicolor.

Winnie Walker. Yellow, shaded bronze.

Each of the above 12 varieties, pkt. 25c., $\frac{1}{4}$ oz. \$2.00

For other varieties, see page 37.

MYOSOTIS ALPESTRIS COMPACTA "Blue Bouquet"

This massive blooming Forget-me-not is of wonderfully compact habit, with unusually large flowers of a rich deep blue. The most effective Spring bedding variety yet introduced. Highly recommended for rock gardens. **Pkt. 50c.**

DOUBLE SWEET SCENTED NASTURTIUM "Golden Gleam"

The plant forms a vigorous, large bush which throws out short runners averaging 18 inches, and when in full bloom the entire plant including the runners, is a blaze of color. The large golden yellow flowers are borne on erect, stiff stems, 6 inches in length. **Pkt. 20c., oz. \$1.50.**

POLYANTHUS PRIMROSE "Spetchley Strain"

A lovely new strain of Giant-flowered Polyanthus Primroses. The plants are of strong, robust, dwarf growth and the flowers of immense size, ranging through a great variety of beautiful colors and art shades. Award of Merit, R. H. S. **Pkt. \$1.00.**

PRIMULA MALACOIDES "Erikssoni"

This variety is a distinct advance in the development of this popular flower. The blooms are very much larger than those of any other variety of "Malacoides," the plants grow freely, and attain very large proportions. **Pkt. \$1.50.**

GIANT-FLOWERED FLORENTINE RANUNCULUS

We strongly recommend this wonderful type. It is very strong and vigorous in habit, with tall stems of bloom 18 inches to 2 feet in height, each individual flower measuring 4 to 5 inches in diameter.

Choice Mixed. Pkt. 50c.

SIDALCEA

"Stark's Ryburgh Hybrids"

The plants of this valuable perennial are of splendid habit, growing erect to a height ranging from 2 to 3 feet. The Mallow-like flowers are borne on long stems from the base of the plant, the individual flowers being over 2 inches in diameter. The colors embrace all the tints of pink, from delicate blush to deep rose-pink and carmine, also including the various tones of red to deep crimson. The plants bloom over a long period, ranging from June till September, and are therefore splendid companions to the Delphiniums. **Pkt. 50c.**

STATICE SINUATA

Kampf's Tall Improved

It produces brilliant deep blue blooms on stalks 3 feet long. This new variety is unsurpassed for cutting and indoor Winter decorations. **Pkt. 50c.**

TROLLIUS LEDEBOURI

Golden Queen

This is one of the finest hardy perennial plants introduced for a number of years. The plant is very vigorous, grows from 3 to 4 feet in height, but its chief value lies in the size of the flowers and the intense orange color, together with the extreme floriferousness and the constancy with which it blooms in Autumn as well as early Summer. **Pkt. \$1.00.**

URSINIA PULCHRA

For a brilliant effect in the garden this delightful little plant can hardly be excelled. It grows about half the height of *Ursinia anethoides* and with more delicately cut foliage. The numerous flowers are of a rich orange color. **Pkt. 50c.**

URSINIA ANETHOIDES

The plants form large tufts of leaves from which spring up long, wiry stems, bearing Daisylike flowers of rich orange yellow, adorned by a beautiful ring of deep purple. Half-hardy annual. Height 1 foot. **Pkt. 50c.**

VENIDIUM FASTUOSUM

A magnificent half-hardy South African annual which can be grown either outdoors or under glass. The plants attain a height of 2 to 3 feet, and above the grayish silky foliage rise numerous rich orange colored Daisylike flowers which are marked with a purple-black zone at the base of the petals. The flowers average 4 to 5 inches across and make a most striking display. **Pkt. 50c.**

VERBENA HYBRIDA COMPACTA

"Royal Bouquet"

This variety marks a new era in the development of the upright growing Verbena. It forms a plant 15 to 18 inches high and not more than 10 inches across, no lateral branches being thrown out. The corymbs are borne on long stems and group themselves together at the summit of the plant. **Choice Mixed. Pkt. 50c.**

NEW SCABIOUS FLOWERED ZINNIA

An entirely distinct and attractive strain of exquisite form resembling somewhat the Double Crested Cosmos. The flowers are of medium size and each bears a collar of petals surmounted by a full, double crest of the same tone of color. The colors range from pale rose to crimson and scarlet with orange, golden and purple shades. Height 2½ feet. **Pkt. 50c.**

ANNUALS

These play a big part in the great color schemes of brilliant beds and borders in our Summer gardens. Both for garden effect and for cutting their beauty and usefulness is equally valuable, and by careful choice as to height, color and time of blooming, effective arrangements can be made for a continuous display away into the Fall. Annuals are also effectively used in the hardy plant borders, particularly in filling in those empty spaces after Tulips, Narcissi, and other early Spring bulbs have bloomed, the seed being sown right over the bulbs.

HARDY ANNUALS. Sow in the open ground where they are intended to bloom. The seeds should be sown thinly and covered with fine soil to a greater or less depth, according to the size of the seed.

HALF-HARDY ANNUALS. The seeds should be sown in pans or frames in the early Spring, and transplanted outdoors in April or May, but previous to removal they should be hardened off by gradually exposing to the open air.

SURPRISE ASTER "Salmongold"

Shades of salmon have hitherto not yet been found among Asters, therefore "Salmongold" is the first in this color on the market. When starting to flower it is pure salmon yellow, the fully developed blooms show a radiating salmon pink shade. The flowers measure from $2\frac{3}{4}$ to $3\frac{1}{2}$ inches in diameter and are carried on long stems. This new variety blooms continuously from July up to late in the Autumn. **Pkt. 50c.**

PERENNIALS *and* BIENNIALS

ONE of the most interesting spots in any garden is the border devoted to hardy perennials, usually called "the old-fashioned" or "grandmother's garden." Their permanent nature and delightful forms and color, their wealth of blooms and continuous display throughout the year are good reasons why perennials are general favorites with everybody.

Some professional gardeners and many amateurs prefer to raise their own hardy flowers from seed, and we think, much of the real excitement and joy in gardening is afforded in tending and nursing the little mites from babyhood. The following list is fairly representative of the choicest and rarest as well as the best old-fashioned flowers available today. Complete catalog of Perennial Plants mailed free on request.

Varieties marked with a (*) are particularly adapted for Rock Gardens

VEGETABLE SEEDS

Specialties of Merit

"The Prince" Bush Bean (Sutton)

A variety of outstanding merit. It is an immense cropper and matures in advance of other well known early varieties. The green pods measure from 11 to 12 inches in length and are thick, fleshy and stringless. Highly recommended for forcing. **Lb. \$1.50.**

Magnum Bonum Bean

A distinct and elegant green-podded bush Bean. The long pods are perfect in form and color. For the exhibition table this Bean is excellent, and it is also very fine for forcing. **Lb. \$1.00, 2 lbs. \$1.95, 8 lbs. \$7.50.**

M.-S. Co.'s Early Red Globe Beet

This fine Beet supersedes all other Turnip-rooted varieties in quality, shape and color. It is exceptionally early, deep red in color, handsome in appearance and of the finest flavor. **Pkt. 15c., oz. 50c., ¼ lb. \$1.50.**

Perpetual or Spinach Beet

An excellent substitute for Spinach, producing green leaves in abundance close to the ground. Immediately one gathering has been made fresh leaves appear, and a constant supply of Spinach is kept up. **Oz. 25c., ¼ lb. 75c., 1 lb., \$2.50**

Italian Sprouting Broccoli

A delicious vegetable having the combined flavor of Asparagus and Cauliflower. Although extensively used in Europe, it is only recently that it has been served in the better hotels in this country. Requires the same treatment as Cauliflower. **Pkt. 20c., ¼ oz. 65c., oz. \$2.00.**

Spanish Gold Sweet Corn

A new yellow Corn of the Bantam type, and considered the earliest variety. The ear is about 6 inches long and the stalks grow to a height of 3½ feet. **Lb. 40c., 2 lbs. 75c., 8 lbs. \$2.80.**

Best of All Onion

This excellent variety possesses in a high degree all the qualities sought for in an Onion. It is of almost perfectly globular form with a very slender neck and bright straw-colored skin. Grows to a great size and as a keeper is second to none. **Pkt. 25c., oz. \$1.50.**

Admiral Beatty Pea

This splendid second early Pea was obtained by crossing the well known varieties Gradus and Alderman and the result is a variety in which the good points of both parents are combined. The long, pointed pods are excellent in form and quality. The robust plant attains a height of 3 to 4 feet. **Lb. 55c., 2 lbs. \$1.05, 8 lbs. \$4.00.**

Essex Wonder Tomato

We strongly recommend this excellent variety to all growers of Tomatoes. Its cropping powers are extraordinary and for quantity and good quality it cannot be surpassed. It is very hardy and will stand several degrees of frost without injury. **Pkt. 50c.**

M.-S. Co.'s White Model Turnip

The earliest and most perfectly-formed, round, white Turnip. Flesh snowy white, solid, and mild in flavor. Admirably adapted for forcing. **Pkt. 15c., oz. 35c., ¼ lb. \$1.00.**

Lawn Seed Mixtures

M.-S. Co.'s Special Lawn Grass Mixture

Weight per measured bushel, 28 to 30 lbs.

Our Special Lawn Grass Mixture is composed solely of the finest and heaviest seeds in the following varieties, carefully blended: **Chewings Fescue, South German Mixed Bent, Kentucky Blue Grass, Fancy Red Top, Rough Stalked Meadow Grass, Pacey's English Rye Grass.**

Lawn Grass Mixtures at a much lower price are very often sold, but the use of these can only lead to disappointment, if a really fine lawn is desired. This mixture is the very best that can be procured.

For new lawns we recommend sowing 100 lbs. to the acre. For renovating lawns use half of this quantity. 25 lbs. \$13.00. 100 lbs. \$50.00.

Central Park Lawn Grass Mixture

Weight per measured bushel 20 lbs.

A well-known mixture of high grade grasses that is still desired by many. 25 lbs. \$12.00. 100 lbs. \$45.00.

"Shady Place" Lawn Grass

This mixture is composed of grasses that are naturally adapted for growing under trees and shaded situations. 25 lbs. \$13.00. 100 lbs. \$50.00.

Lawn Restoring Grass Mixture

A mixture of grasses suited to take firm hold and grow quickly on hard, worn out or burned spots. 25 lbs. \$13.00. 100 lbs. \$50.00.

Lawn Tennis Grass Mixture

Composed of fine-leaved, deep rooting grasses that will produce a fine, close, elastic turf. 25 lbs. \$13.00, 100 lbs. \$50.00.

Terrace Grass Mixture

A mixture of deep rooting grasses suited for terraces and embankments, that takes firm hold and withstands drought and exposure. 25 lbs. \$13.00. 100 lbs. \$50.00.

Fair Green Mixture

Composed of dwarf spreading grasses, forming a close, velvety surface that improves from year to year. 25 lbs. \$12.00. 100 lbs. \$45.00.

Putting Green Mixture

This mixture consists of most suitable grasses for insuring a close, dense turf, essential for putting greens. 25 lbs. \$20.00. 100 lbs. \$75.00.

Special Mixtures for Hay and Permanent Pasture

These mixtures include the most nutritive and productive grasses suitable for laying down light, medium and heavy soils to permanent grass. State nature of soil when ordering. 25 lbs. \$10.00. 100 lbs. \$35.00.

Orchid-Flowering Dahlias

This fine new race is certainly due great popularity for landscape effect, gardens, table arrangements, and dainty decorations. The bushes are compact, free branching, and exceedingly prolific bloomers. Most of them are 4 to 5 inches in diameter and 2 to 3 feet in height. They do wonderfully well when pinched or cut back for landscape effect, but should not be thinned out nor disbudded. If Orchid-flowering or Single Dahlias are cut before the pollen shows, they will hold their petals and keep for days.
